MESSAGE FROM YOUR MAYOR -

Dear Friends:

As your Mayor, I am proud to present the 2016 Deptford Township Calendar. It is filled with important information and great events for you and your family. Together with Council and the Township Workers, we are working hard to provide essential services to make your lives easier every day. We all work together to do more with less and keep Deptford Township on the map as a leader in commerce, efficiency and protecting our quality of life.

Our town will continue to look at ways to expand our shared services program and attract new businesses to provide jobs and tax revenue. Please remember to patronize the businesses that support our community. The local businesses and hardworking volunteers play a vital role in the many programs and events which are included in this calendar. None of this would be possible without their help.

Finally, thank you for your continued support. Council and I remain committed to you and Deptford Township. Our motto here in Deptford Township is “The Sky is the Limit”, so remember anything is possible when we all work together.

Sincerely yours,
Mayor Paul Medany

FASOLA PARK UPGRADES CONTINUE

Mayor and Council are pleased to announce the expansion of the playground facilities at Fasola Park. In addition to the Splash Pad and distinct play areas for children ages 2 to 5 and 5 to 12 years of age, Fasola Park will see the addition of an Explorer Dome and two supernovas for even more fun and enjoyment. The bathrooms have been newly renovated and expanded to provide a more user-friendly environment for families.

ALMONESSON LAKE ACCESS

Nature Trails and water recreation opportunities are important activities that Mayor and Council wanted to make available to the residents of Deptford Township. Almonesson Lake is now accessible to all Township residents and boasts a kayak/canoe ramp as well as a floating dock for fishing or just relaxing. The Lake is accessible from the corner of Good Intent Road and Lakeside Ave.

SNOW REMOVAL - RESIDENTS are REMINDED to KEEP CARS OFF SNOW COVERED STREETS in ACCORDANCE with TOWNSHIP ORDINANCE No. 0.1.01

It is extremely important to keep parked cars off the streets during snow storms. Your co-operation will enable Township crews to clear the snow adequately from the streets. Snow storms can be stressful for everyone. Please be patient to allow our crews to effectively and safely complete snow removal. The Township of Deptford needs the help of its citizens to efficiently remove snow and ice from the roadways. The main roadways (those that carry the most traffic) are given first priority for salting and plowing. During a heavy snowfall, concentration is placed on the main roadways until they are cleared at which time the secondary roads are attended to. Cul-de-sacs, or circles, are the last to be plowed.

- Cul-de-sacs are among the most difficult streets to plow and require the greatest amount of time. The Public Works department prefers to push the snow off the road leaving the cul-de-sac free from snow piles that could melt and cause icing conditions. This greatly reduces hazardous conditions and prevents pot holes from forming. Cars parked on the street become a major problem during inclement winter weather. As the plow goes around the parked vehicles, it leaves piles of snow on the roadway. To avoid this, please remove vehicles from the street during snowstorms, in accordance with Township Ordinance. Please do not throw snow into the street from your sidewalk and driveway.

SPRING CLEAN UP

• Spring clean up is only for the month of April. Please have leaves curbside before the first designated collections date which will be online or in the newsletter as this will ensure prompt service. Please keep branches separate and call Public Works for pick up.

STORMWATER MANAGEMENT

• Water from rain and melting snow that flows over lawns, parking lots and streets is known as stormwater runoff. This water, which travels along gutters, into catch basins and through storm drain pipes and ditches, usually is not treated, but then flows or is discharged into local waterbodies. Along the way, the stormwater picks up trash (fast-food wrappers, cigarette butts, Styrofoam cups, etc.) and toxins and other pollutants (gas, motor oil, antifreeze, fertilizers, pesticides and pet droppings). This polluted stormwater can kill fish and other wildlife, destroy wildlife habitat, contaminate drinking water sources and force the closing of beaches because of health threats to swimmers.

• Human activity is largely responsible for the stormwater pollution. Everything that we put on the ground or into the storm drain can end up in our water. Each of us has a responsibility to make sure these contaminants stay out of our water. Whether we have clean water is up to you.
